

CLAW & COAL

Seafood Boil & Grill

OUR SOURCING & WELFARE COMMITMENT

We love great seafood, and we care deeply about animal welfare.

Ahead of our upcoming grand opening, we want to reassure our Beckenham community that **CLAW & COAL strictly adheres to all UK animal welfare standards and regulations.**

In full compliance with the Animal Welfare (Sentience) Act, we maintain a strict policy against boiling live, conscious shellfish. All of our seafood is either sustainably caught and humanely pre-processed at the source, or humanely dispatched using industry-approved ethical standards prior to cooking.

We are incredibly excited to bring a fresh, vibrant, and responsible dining experience to Beckenham High Street. Thank you for your support, and we look forward to welcoming you through our doors very soon!
